Inside this issue:

The AdoptSriLanka TWINS Program

Our Vision

“Empowering children through knowledge”

Our Program

TWINS links schools in Sri Lanka with schools abroad to promote global and cultural awareness and to increase confidence in English.

TWINS supports English language learning through 4 main project areas:

- ASL TWINS Global School Partnership Program
- ASL TWINS English Teacher Training Program
- ASL TWINS English Unit Development Program
- ASL TWINS Student Participation Program

Our Program..... 1

Handy Sinhala and Tamil Phrases 2

New English Activity Rooms 3

UK teachers visit Weligama Jinaraja 4

Conference and Toolkit update 5

Park School Governor visits TWINS School 5

Computer Corner— What the teachers say! 10

Congratulations 10

Welcome to New TWINS Partnership 10

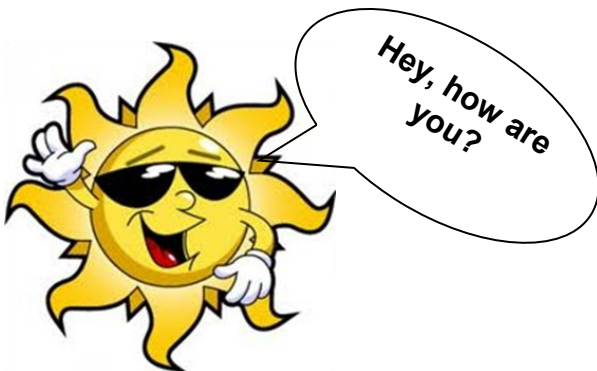

Children at Puwakdandawa Primary are very happy to see photos of their project with their UK friends at Lethbridge Primary School, Swindon.

Handy Sinhala and Tamil Phrases

In our last Newsletter you had the chance to learn some useful words linked to food and ingredients in Sinhala and Tamil. With this issue you can have fun with your students learning words for different emotions!

Useful Phrases in Sinhala and Tamil

English	Sinhala	Tamil
Happy	Sathutui	Santhosam
Sad	Duka	Kawalei
Angry	Tharaha	Kofam
Confused	Aul	Pirechchiner
Excited	Pudama wenaw	Pudumei
Worried/Anxious	Karadarayen	Kareichal
Calm	Santha	Nimmadhi
Thoughtful/Pensive	Kalpanakari	Yosanei
Amused	Vinodakami	Mahilchi
Surprised	Pudumawenawa	Miha Pudumei
Optimistic	Subawadi	Nalla Yasanei
Pessimistic	Asubawadi	Ketta Yosanei
Lonely	Hudakala	Thanime
Curious	Kuthuhalayen	Thettiem
Bemused	Aulsahagatha	Sombel
Nervous/Apprehensive	Ikmanin bayawena	Aiyappadu
Peaceful	Samakami	Samadhanmana
Amazed	Mawithakarawana	Mahilwiththal
Scared/Frightened	Bayawenawa	Payamkatugdal
Serious	Barapathala	Paradurum

Opening of new English Activity Rooms

As part of ASL TWINS English Unit Development Program we are very pleased to announce the opening of two new English Activity Room's (EAR's).

Puwakdandawa Primary

Monday 18th October 2010 was a red letter day for the children and teachers at Puwakdandawa School's primary section, Tangalle. On this day the school held their English Activity Room opening ceremony organized by TWINS Coordinator and English teacher Mrs. Malani.

Special guests were met at the school gate and led by children dancing and drumming to the EAR where Jo Collins, ASL TWINS Program Coordinator was invited to cut the ribbon and officially declare the room open.

After, a small cultural show was held in the room for the guests to show the children's talents. They performed English action songs, traditional dance and made thanking speeches in English while there school friends and some parents watched from outside.

The traditional 'Waliga Patuna' dance

The room was developed thanks to a donation received from the Burnett family. ASL TWINS was able to supply paints, good quality wooden tables, stools, a panel board and a selection of English books.

The paints were used by the children in grade 5, some volunteers from the secondary section and an enthusiastic parent to transform the room by painting

bright English focused murals on the walls. Puwakdandawa is TWINNED with Lethbridge Primary School, Swindon, UK.

Secondary student gives a helping hand

Dikkumbura Sri Siddhartha

Thursday 28th October was a great day in Dikkumbura Sri Siddhartha School's history. For a long time the school had suffered from a lack of useable facilities and had no dedicated space for English. ASL TWINS and the school were able to address this problem using funds generously donated by their TWINS school, Kings College School, Cambridge, UK.

An old class hall in poor condition was allocated by the school and work began to renovate it on 13th March. It was great to see the school and wider community all working together on this project as fathers volunteered their time and energy to do the building work needed.

The school organized a grand opening ceremony and invited Bec, GM of ASL to participate as the chief guest. The schools western band welcomed the invited guests to the school before Bec was asked to cut the ribbon on behalf of Kings College School. After, everyone gathered in the auditorium to participate for a special show organized by the English Unit. A special message from Helen Barker, coordinating teacher at King's was read out by Anusha Liyanage, Field Officer for Region 1.

Now, the children of Dikkumbura Siddhartha School have a very nice, colourful and attractive place to learn English. Everyone is very pleased with what they have been able to achieve with a little help from their friends and highly appreciate the great effort made.

Resources supplied included building materials, paint, furniture, a panel board and English books. Everyone at Dikkumbura Siddhartha School is very happy and excited with their new facility. They would like to offer their gratitude to Kings College School for their kind and generous donation to develop their English Activity Room.

ASL TWINS would like to thank the Burnett family and King's College School for their fantastic support

The school Western Band welcome's the guests and Bec Lyons cuts the ribbon!

A visit from Cleaves Cross Primary School

**Written by Janine Atkinson
Cleaves Cross Primary School,
Ferryhill, Co.Durham, UK**

On Monday 27th September 2010 my colleague, Mrs Harrison, and I had the very great pleasure of arriving at Weligama Jinaraja School in Weligama, Sri Lanka. Thanks to funding made available from a reciprocal visit grant from the British Council, we were able to visit our twin school and begin to forge stronger links, develop ideas for curriculum exchanges, teach English and forge life-long friendships. The Principal and staff made us feel extremely welcome and made huge efforts to ensure that we were comfortable, going out of their way to provide for our needs.

Janine and Karen meet the students

Throughout the week, we were thrilled to be able to make use of the English Activity Room, to teach English songs and stories to children who were delightful and extremely keen to learn. The children had great fun learning "Five Little Ducks" and "Five Little Speckled Frogs"- I'm sure Mrs Harrison's hats helped! As well as learning traditional English songs and stories, we were able to teach about our seasons and traditional foods.

Mrs. Harrison's hats!

Mrs Harrison and I were particularly impressed with the children's knowledge of English and we enjoyed helping them perfect their pronunciation. We feel we must also comment on their beautiful handwriting!

Karen working with the children

We were lucky to be visiting on Children's Day – and were treated to a wonderful whole school and community assembly. The children and staff worked extremely hard to ensure parents and visiting dignitaries had a wonderful time!

A big thank you must be said to the two English teachers Mrs Ranasigha and Mrs Priyangani for the support and kindness they showed us during our visit. They spent a great deal of their own time introducing us to friends and family, showing us the sights and sharing their beautiful country and culture with us. We look forward to returning

their kindness next year when the teachers will visit us!

Photo with the teachers!

ASL TWINS would like to send a good luck message to Mrs. A.V.C. P. Ranasinghe & Mrs. H.P.D. Priyangika from Weligama Jinaraja K.V. who will be visiting Cleves Cross Primary School in the Spring 2011.

We would also like to wish good luck to Mrs. L.K.C. Peiris from Dharmarama Model Primary School, Galle who will be visiting her TWINS school, Calverley Park-side Primary, Leeds, UK from the 4th to the 12th December 2010

Thank you to DFID for providing funds through the BC Reciprocal Visits Grant.

Children proudly show the project work brought for them from the UK

Conference and Toolkit

Following the evaluation of our program by Sophie Remy at the beginning of the year, ASL TWINS has been implementing recommended strategies to further develop and improve all aspects of our work. As a part of this, ASL TWINS will be re-launching a 'new look' TWINS program in February 2011 at the inaugural TWINS Conference to be held in Sri Lanka.

This residential Conference will run over 3 days, 23rd to 25th February and all Sri Lankan TWINS coordinating teachers will be invited to attend. It is hoped that some overseas coordinators that are currently planning their own trips or reciprocal visits through the DFID grants program may also be able to participate before spending time at their TWINS schools the following week.

ASL TWINS continues to strive to create sustainable global school partnerships that benefit thousands of school children both in Sri Lanka and overseas and it was with this in mind that the idea to hold the conference, bringing all the teachers together, was formed.

The teachers will actively participate in a packed program of presentations, networking events, workshops and debates. Workshops already planned include:-

- Explanations of the 4 main global dimension themes followed by project planning workshops
- How to organize a TWINS Club
- How to organize an inter-school English Activity Day
- How to communicate with your TWINS school
- How to star rate your partnership
- Student participation

The conference, which will be held at Wackwella, Galle, Sri Lanka, will focus on strengthening global school partnerships and increasing student participation.

Each teacher attending the conference will receive a bag of useful information. Teachers will also take away a copy of the new ASL TWINS 'Toolkit' which will contain all the information and guidance they will need to develop and maintain an ac-

tive, successful and sustainable global school partnership.

This new 'Toolkit' will also be available on our website for partner schools to download and includes information on drafting Partnerships Agreements and Project Exchange Plans, Project Plans and how to link topics to the curriculum, Global Dimension, Student Participation including Inclusion, TWINS Rep's and Global Clubs, English Unit Development, Communication and Useful web links to support your partnerships

We are very excited about our plans for the future and we are sure that the conference will be a fantastic event.

If you are keen to attend this event, or participate as a facilitator or key note speaker please contact

specialprojectsofficer@gmail.com

School Governor visits new TWINS School

It was a very exciting and unforgettable day for the children at Hinidumgoda Vijayananda School on Tuesday 26th October 2010. Ms. Inga Page, the Chair of Governors at Park School, her husband Alexander Levy and their daughter Liana, (former Park School pupil) took time from their family holiday to drop in for a visit.

The family were warmly welcomed at the school, firstly, by children in traditional dress offering posies of flowers.

off their children's talents. These included singing, dancing and welcome speeches.

Children performing at the concert

The partnership between the schools began in July this year so it is wonderful for Hinidumgoda School to receive a visit on behalf of their TWINS school so soon. This personal contact can only help the partnership develop well in the future.

The family ready to leave after spending a couple of hours at the school.

Flowers for the visitors

After meeting the Principal they were taken to the main hall where the English Unit had organized a mini concert to show

Next Inga, Alexander and Liana enjoyed a tour of the school with the Principal and were able to have a good look around.

Many thanks to Ms. Inga Page, Alexander Levy and Liana for visiting and spending time with the children and staff at Hinidumgoda School

Our TWINS Global Clubs

Written by Indu Waniganayaka Ranna M.V., Sri Lanka. TWINNED with Bottisham Village College, Cambridge, U.K.

Many people are ready to define the world as a universal village because of the modern methods of communication. If this is true then the children in our classrooms are also universal students. Particularly the students in the English language classroom are so because they can communicate in English with other students in another country.

The TWINS school program has shown the way for such a facility in my school, Ranna Maha Vidyalaya, in the Hambantota District. Now our students are able to share their knowledge, feelings and cultural understanding with the students at Bottisham Village College in England.

The students have been highly motivated by this program and about what they have to say to the students from a different culture. They are in the process of preparing many items by themselves to be exchanged and as a result, they are building up confidence in themselves that they can do it if proper guidance is given by the teachers.

Those interested in maintaining the link between the two schools have formed a TWINS Global Club where they can discuss what they feel and what they intend to do in the program.

The Global Club has a President, a Secretary and four Office Bearers to represent the school and report information to our TWINS school. Members are made up of 12 students from grades 8 to 10 making 36 as a start.

The main object of the club is to communicate between the two schools in order to promote their language skills and cultural understanding. In the TWINS Club the participants have various roles ensuring their active and full participation while the English teachers act as facilitators for their

needs. Other non English speaking teachers are also keen to observe and facilitate when needed and depending on the project topic.

The first meeting of the TWINS Global Club

At our first ever meeting our ASL TWINS Field Officer, Sanath Wakunagoda and I were able to witness their motivation and enthusiasm for making an Activity Plan. It seems that the students have a lot of plans to implement in the course of the year and I'm very happy to mention that they are working well on their own. Some of the activities that they intend to implement are as follows:-

- Reading out the news that comes from their TWINS school at the morning assembly.
- Presenting an item, in English, at any school event and special occasion.
- Presenting a magazine of students creations to send to TWINS school.

- To speak in English as much as possible
- Preparing projects on agreed topics to be exchanged with TWINS school

And I am very happy to say that the students in the TWINS Club have already successfully accomplished the 'Our Culture in a Box' project by themselves. They have shown their colours and I am proud with what they have been able to achieve and the way in which they have worked together in a more creative and informal way.

I am sure that the TWINS Club can proceed well in the future. It is already very popular and it would be nice to be able to expand it to allow more students the opportunity to participate.

ASL TWINS is very happy to encourage the forming of Global Clubs as this enables the students to work creatively and more freely on projects. Often in Sri Lanka, teachers are tied to the text book and find it difficult to fit the projects into their lessons. This is certainly a great way to overcome this problem and to ensure active student participation.

It is fantastic to see the enthusiasm and enterprise that the Ranna students are displaying and we would like to thank and congratulate Indu for her leadership as TWINS Coordinator and facilitator of the Club.

Members of the TWINS Global Club with Indu, the Principal and Priyanthi

Turtle Conservation Education & Research Centre

Since 2005, ASL has supported a number of coastal conservation and rehabilitation initiatives through the Turtle Conservation Project (TCP). These projects included setting up 15 nurseries and from these nurseries a total of 300,000 pandanus and mangrove plants were replaced along the southern and western coastlines of Sri Lanka following the devastating tsunami that struck on 26th December 2004.

ASL is dedicated to supporting education projects and it is in this spirit that land in Rekewa was purchased for the Turtle Conservation Project. Work is now well underway to construct an eco-friendly education and research centre for turtle conservation in Sri Lanka.

Ceremonial Foundation Stone

On 16th September 2010, the founder of ASL, Geoffrey Dobbs along with ASL General Manager Bec Lyons, TWINS Program Coordinator Jo Collins and representatives from TCP officially laid the first stone in a traditional foundation stone laying ceremony. This ceremony involves placing a small box filled with seeds, gold and iron into the ground while a member of the local community chants a blessing. The people believe that this will ensure that the building is strong and protected. The construction is being coordinated and funded by ASL thanks to the generous support of many donors, including HRH the Prince of Wales.

Geoffrey Dobbs and Bec Lyons help to bury the foundation stone.

The Centre will efficiently use energy, water and other resources to minimize negative impacts on the environment. By utilising locally sourced natural materials the centre will actively reduce waste, pollution and environmental degradation to the local community while spreading an environmentally conscious message to Sri Lankan and international communities.

Local and international tourists as well as touring school groups will soon be visiting the centre to participate in night watching for turtles as well as learning first hand from local guides the importance of conserving Sri Lanka's unique fauna and flora.

The new centre taking shape thanks to the hard work of the labourers.

World Record Tree Planting Event

The 15th November was an important day for the National Tree Planting Program here in Sri Lanka. This initiative began in 2009 under the direction of the President Mahinda Rajapaksha.

On this day his ambition was to plant 1.1 million saplings within 11 minutes creating a world record. The President led the way, after multi religious observances, by planting a "Kiripalu" sapling, at the President's House in Colombo. This launched the tree planting campaign at the auspicious time of 10.07am and schools and other community groups also started to plant trees at this time.

We do not know if the world record was achieved or how it was adjudicated but we were happy to learn that many of our TWINS schools were involved in this fantastic, environmentally friendly event.

One of these schools was Unakuruwa K.V. located on the south coast of Sri Lanka just a few miles west of Tangalle, TWINNED with St. Peters Church of England Primary, Morcombe, U.K.

ASL TWINS Field Officer, Jude Lasantha was in the school at the time and saw the children enthusiastically planting a variety of saplings around the school grounds.

Students at Unakuruwa enjoy time out of lessons planting trees .

ASL would like to say a huge well done to Unakuruwa and all the schools who took up the challenge.

ASL TWIN Schools will soon be able to include the TCP Education and Research Centre as a destination point while on their Educational Tours. Dormitory accommodation is also planned to enable children to turtle watch and then spend the night while on their educational tours.

The TCP Education and Research Centre is set to be opened to mark the 6th Anniversary of the Indian Ocean Tsunami on 26th December 2010.

For further information or to find out how your school can support this exciting initiative contact

adoptsrilanka@gmail.com

New Project Plans!

We are very pleased to see many more school partnerships working together to plan their project exchanges in advance and to create Project Plan Agreements which cover a 12 month period or the school year.

To assist with this we have recently created many new project plans to help teachers to plan their project exchanges with their TWINS schools.

These can be downloaded from our website, located in the TWINS Resource Centre.

The project plans have been specifically designed to link to both schools curriculums, cover a wide range of topics and subject areas and include Global Dimension themes.

Most projects can be simplified or extended to suit the age and abilities of the students.

Here are just a few to wet your appetite!

Sports Mad!

This TWINS project aims to give the students a chance to explore the world of sport and to share with their peers overseas the sports they enjoy playing and watching in their own country. The students can also share their sporting heroes and look at how sport relates to their fitness and health, culture and national identity.

This project can be linked to the global dimension theme of 'diversity'.

What Waste?

This TWINS project is a great way for students to explore the environmental issues of waste and recycling. The students can look at the amount of waste they and their families produce, how it is disposed of and how it can be recycled. The project has been designed for secondary students but can easily be simplified for primary aged children. This project can be linked to the global dimension theme of 'Sustainability'.

The Animals Around Us

This TWINS project gets students to create an informative and attractive project book about the animals that live around them and then to learn about the animals that live alongside their foreign friends.

The students are asked to consider what impact the animals have on their lives and what impact they may have on the animals!

This project can be linked to the global dimension themes of 'Diversity and Environmental Sustainability'.

Traffic Trouble!

This TWINS project is an interesting way to link a project to the Math curriculum while studying the different types of traffic and their effect on the environment. The students should conduct a survey by recording how many vehicles and vehicle types use a chosen road over a given period of time. This could be the road outside their school. They can then create pie charts and graphs and illustrate their work further with photo's and drawings to create an informative project book or posters. This project can be linked to the Global Dimension themes of 'sustainable development and diversity'.

Rules and Laws

This TWINS project aims to give the students in both schools an understanding of the difference between Rules & Laws in their country and the country of their TWIN School. They will consider who makes these rules and laws, why they exist and compare the similarities and differences between countries. Students will select 5 rules and 5 laws to research and share with their overseas friends. This project links to the Global Dimension theme of 'Social Justice'.

Our Culture in a Box

This TWINS project aims to help students to understand the culture and identity of their TWIN school's country. Each school sends a 'box of culture' to their partner school containing 10 items which the students feel best represent their country. This project can be linked to the global dimension themes of 'diversity'.

The Night Sky

This TWINS project aims to give the students in both schools a chance to explore the science of the Solar System and also look at how the night sky may impact on their daily lives and those of their peers overseas. The students can also consider how astrology is linked to astronomy and whether this plays a part in their culture.

Traditional Stories

This TWINS project is a great way for students to look at, present and share the traditional stories of their culture and country with their TWINS school. The children rewrite and illustrate their stories and exchange their colourful story books. This project can be linked to the global dimension theme of 'diversity'.

Creating a Travel Brochure

This TWINS project aims to give the students in both schools a better understanding of their local identity and to promote their surroundings and culture to their TWIN school by creating a travel brochure. This should be done to promote the places of interest and attractions situated in the same county or province of each school. This project can link to 'diversity & sustainable development'.

Do you have an interesting idea for a joint project?

**If so, we would love to hear about it!
Please contact Jo Collins

2011 Teacher Training Program

Mary Yuille volunteers her time each year heading the ASL TWINS Teacher Training & Development Program. Below, Mary shares the details

of just some of the exciting projects we have in store for Sri Lankan teachers in 2011...

It was so good to touch down on Sri Lankan soil again and feel the sun and the warm welcome from the AdoptSri-Lanka team.

This month has been spent visiting some teachers from schools in the Galle and Matara regions and excitedly observing some very enthusiastic, interactive and dramatic English lessons, with spoken word foremost in many activities. Thank you to those teachers

who have been trialing my Activity Book "Let's Speak English" Grade 3. The results have been very promising and we are now working on 'Let's Speak English' for Grade 4.

Next term we are planning a new series of training workshops in response to the requests from local teachers for schools throughout the Southern Province. I am also hoping to spend a week in Batticaloa, with visits to schools as well as a series of training days, which will support the piloting of new TWINS School partnerships between eastern and southern schools in Sri Lanka.

Classroom Management

A look at the planning and discipline that supports a happy, interactive, learning environment

English Camps

Timetabling and planning an unforgettable English Camp. This workshop will link to a new Grants program being offered to ASL TWINS Schools in 2011 where small school clusters can apply for resource assistance to carry out an inter-school English camp between 3 or more schools.

Reading, Storytelling and Drama

The importance of each in developing a creative child with a special emphasis on encouraging teachers to read to children and for children to become excited about learning to read.

For more information about the ASL TWINS Teacher Training Program please contact Mary on maryasltwins@gmail.com

GLF School Outreach Program

Galle Literary Festival School Outreach Program

ASL TWINS is once again partnering with the Galle Literary Festival to run a range of school outreach events throughout the festival and well in to 2011. Firmly established on the world literary calendar, the 5th anniversary of the Galle Literary Festival will take place 26th January to 30th January 2011. This schools outreach program continues to expand as the Festival itself approaches school-going age.

Creative Writing Workshops & Competition

Since the Festival's inception ASL TWINS has run a creative writing competition in schools. These workshops focused specifically on promoting crea-

tive reading and writing. This is of course a subject close to the Festival's own heart. This year we offered creative writing workshops to all entrants to the competition, from 25 national and provincial schools – aimed at supporting these young writers to write original stories from their own experience rather than what they expected the judges to want. The competition has now been judged by the Festival Team and the winners will receive books and tickets to the schools day of the Festival. One selected story will be uploaded to our website as soon as the winners are officially announced!

Schools' Day at the Galle Literary Festival

In 2010, for the first time, the Festival with the assistance of ASL TWINS, ran a day of activities for schools at the start of the Festival. This special event involved over 100 students from selected Galle Schools. The program, developed with their interests and language levels in mind, included a historical scavenger hunt through the Fort and sessions with visiting writers. This was an inspiring and unusual opportunity for schoolchildren to truly have an international literary festival come to their region and address their interests. Schools' Day will take place again following the 2011 Galle Literary Festival.

Scavenger hunt in the Fort during the 2010 Festival's 'Schools' Day'

Teacher Workshops

ASL TWINS is currently working with the British Council to run a range of workshops for teachers from the Galle area as part of the 2011 Galle Literary Festival. These workshops will have a special focus on story telling and encouraging children to read and will also provide teachers with useful resources and new books for their students. These workshops are just some of the workshops on offer for Sri Lankan schools this year (see above) for more details on our teacher training program.

For more info on the Galle Literary Festival please visit

www.galleliteraryfestival.com

Computer Corner

The new teacher's Computer Corner in the Tangalle office continues to be a popular place for teachers to come after school to receive tuition on all things ICT.

After a short trip home to the UK in October 'Clive Sir' has once again joined us as a volunteer and mentor to the teachers who are eager to improve their computer skills in the Tangalle area. The teachers knowledge of ICT varies widely so each is encouraged to learn at their own pace and concentrating on the areas where they would like the most help. Clive's students are currently learning how to send emails, attach photo's and files, edit photos and successfully search the net. Here is what some of the teachers have to say about the new facilities open to them.

"I am really thankful to everyone in the Adopt Sri Lanka for giving me this valuable chance to enhance my computer skills. It's really amazing experience with my loving teacher (Clive sir). Though I had experienced with several computer courses, this is the most favorite class."
Miss. Krishna—Tangalle Balika School.

"I think teaching a group of teachers is not an easy task especially when they are climbing an unfamiliar hill; lagging behind with a speedy technology! But Clive Sir, with his smile and patience makes the climb not only impossibly easy but interesting as well. Internet usage is something most of our generation failed to grasp and being mindful of it Clive Sir makes the learning effective and long lasting in our memories."
Mrs Indu Waniganayaka—Ranna M.V.

"I have attended the computer course the last three months. Now I can get more information from the internet. On the other hand I can send the e-mails, attach the pictures, save the e-mail addresses etc. The course is very useful for me and the other teachers. I thank ASL and our sir, Mr. Clive very much."
Mrs. Vajira—Kahandamodara K.V.

"Thursday is a special day for me as I attend the IT class at ASL Tangalle. By now our talented trainer, Mr. Clive has shown me very useful paths to communicate with the world which I haven't learnt from anywhere else before. I apply it in my classroom teaching too. It's really fun to learn from him and I look forward to getting more and more."
Mrs. Gayathri—Kattakaduwa K.V.

"I'm very happy to say that this program is very important to me. Thank you very much sir by giving this opportunity for us."
Mrs. Padmini—Nihiluwa M.V.

Wedding Congratulations

Another member of our small team at ASL has tied the knot!!

We would like to congratulate Thilina, ASL Accountant on his marriage to his lovely bride Asanka. The photo below was taken at the homecoming event which took place on Sunday 19th November at Thilina's family home and was attended by family, friends and colleagues from ASL.

Seeking New TWINS Schools!

We would like to warmly welcome the following new school partnership to the ASL TWINS program

Woodthorpe Primary School, York, TWINNED with Seenimodara School in Region 3

We have many Sri Lankan schools awaiting twinning. Please help us spread the word about the TWINS Program by encouraging other schools in your part of the world to get involved!

Schools currently seeking a TWIN:

- Motagedara Secondary School
- Ihalagoda Sumangala Model School
- Nayakawatta Rajapaksha K.V.
- Tangalle Primary School

ASL TWINS IS EXPANDING AND WE ARE EXCITED ABOUT THE FUTURE

PLEASE HELP US SPREAD THE WORD!

WE ARE LOOKING FOR MANY MORE NEW SCHOOLS OVERSEAS TO JOIN US

-THANK YOU-

CONTACTING TWINS...
